

# Nature, nurtured; what we do best

## Enriching the great outdoors with better plants.

Contract growers, landscapers and suppliers of eco-sourced plants of the highest quality, our vision is to enrich New Zealand's great outdoors with better vegetation. Focussing on the right plants for the right place, we're skilled in collecting seeds from naturally occurring populations and propagating strong, healthy plants to thrive in the desired location.

In the growing game for more than 20 years, we've built the knowledge and hands-on know-how to deliver a superior range of natives and exotics, including an unrivalled collection of harder-to-grow species. Specialist care is at the roots of our business. We nurture our services, plants and our relationships to ensure all that we deliver, flourishes.

## Grow HQ. Home to greater growth.

### Talk to the Grow HQ team about:

- Contract growing at any scale in our 15-acre nursery
- Eco-sourced plants from Waikato, Auckland, Coromandel, Bay of Plenty
- Plugs GOLS and container plants up to 5 litres
- End-to-end seed sourcing, propagation and delivery
- Landscaping and ornamental plants
- Harder to grow lines
- Wetland species
- Specimen trees.

## Harder to grow? We grow it.

Get in touch to discuss your next project. We'll source the right plant, for the right place, nurtured to the highest standard.
